

PERIMETER AND AREA FORMULAS

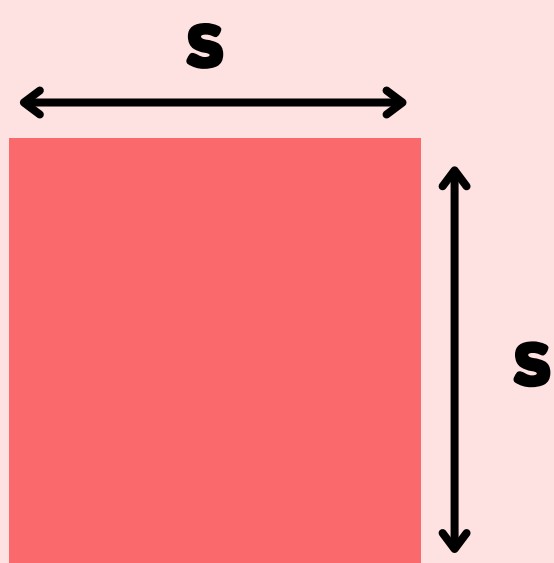

A = Area

The amount of space inside a shape.

P = Perimeter

The total distance around the outside of a shape.

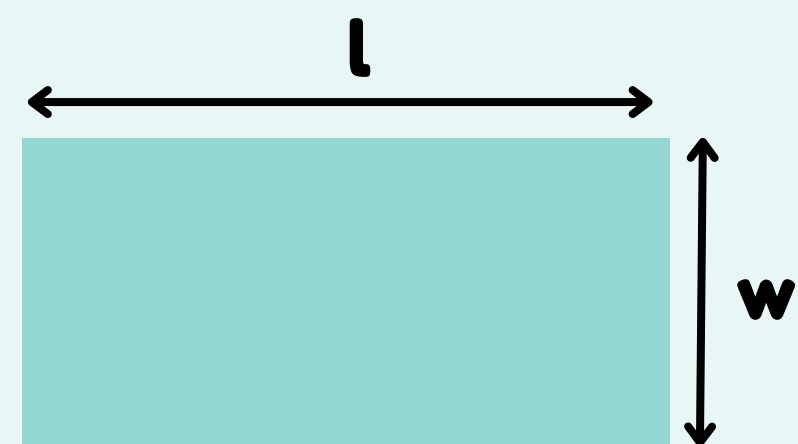

SQUARE

Area
 $A = s \times s$

Perimeter
 $P = 4 \times s$

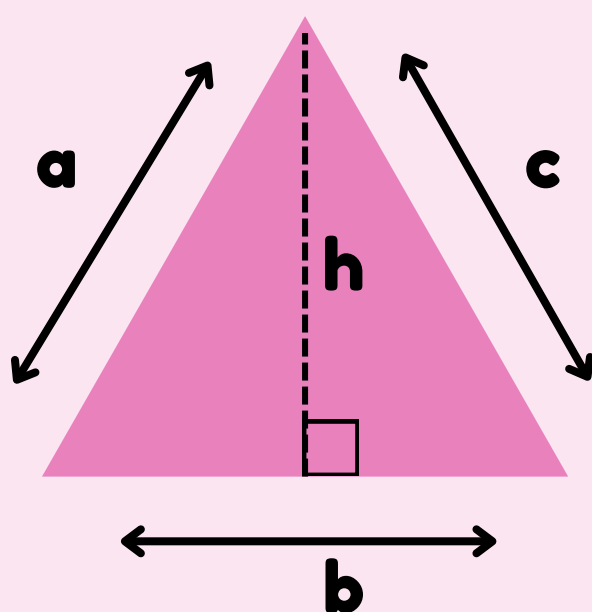

RECTANGLE

Area
 $A = l \times w$

Perimeter
 $P = (l+w) \times 2$

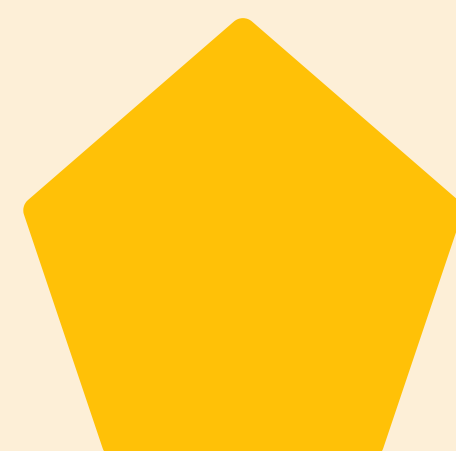

TRIANGLE

Area
 $A = \frac{1}{2}bh$

Perimeter
 $P = a+b+c$

POLYGON

Perimeter
 $P = n \times s$

n = No. of sides
s = length of one side
